CEBU IRON FOUNDRY CORPORATION

# COMPANY PROFILE

Cebu Iron Foundry Corp. was established and started its operation in December 1989. Initially CIFCO manufacture Industrial V Pulley for industrial & agricultural uses. Few years after, it expanded to Cast Iron Fittings for water works system application and other hardware items made of Cast Iron.

CIFCO now employs 40 experienced workers both in the Foundry and Machine Shop departments. After 15 years of operation, the company still continue its product research and development to achieve its goal in quality products and services to the metal industry.
